What is a cookie?

A cookie is simply a small text file. It isn't a program and doesn't actively do anything on your computer.

Why do we use cookies?

As with many other websites, we use cookies for several reasons, the main one being: To monitor and measure what visitors do on our website. This allows us to know what areas of the site are popular, how often visitors come back, where they come from, whether they are using a PC or a mobile device and so on. Knowing how our site is being used means we can enhance users' experience in future.

If you still decide to opt out, you have two options:

- You can adjust the settings on your internet browser to prevent cookies being downloaded. How this is done varies according to which browser you are using and we recommend you refer to the appropriate online help guides.
- You can opt out of receiving specifically those cookies we use to track how people are using our site.
